ST. LOUIS, MO - Urns of America, LLC refutes the rumor that one of their cremation urns was used to house the ash remains of Michael Jackson, the famed "King of Pop" who perished June 25, 2009. He was 50 years old.

"We have received an inquiry asking if there was any truth to the rumor that Michael Jackson's cremated remains were put into one of our urns," said Todd Witengier, Vice President of Marketing for Urns of America, LLC. Responding to the rumor, Mr. Witengier continued "to the best of our knowledge, no one associated with Mr. Jackson or his family had purchased one of our urns or even contacted us with the intention of doing so."

Despite not having supplied the Jackson family with a cremation urn for Michael, Mr. Witengier indicated that if they did wish to do so, Urns of America, LLC would be honored to furnish the family with one of their premium products. According to Mr. Witengier "it would be a fitting tribute to a beloved iconic figure whose global influence bridged the cultural divide and will continue to do so for generations to come."

According to reports, Michael Jackson was not cremated, but instead laid to rest in Forest Lawn Cemetery in Glendale, California on September 3, 2009.

###

Urns of America, LLC is an online provider of urns, cremation urns and funeral urns for adults, children, and pets. Urns of America offers many different styles of urns, including religious urns, specialty urns, military urns, keepsake urns, and many others.
